Subject: Microsoft Settlement.

Dear Sir,

I'd like voice my thoughts on the MS Settlement that now has been going on for sometime. I respect and appreciate what the various states have done to protect the public from MS. At the same time we as a nation need to move on from this. I believe MS has punished and the original settlement on the table is fair and just. As a tax payer, I'm not happy that we are wasting good tax dollars at this point. The only people benefiting are the legal personnel.

Cordially,
Thomas J. Henn
